

| BRAND  | RATING | COUNTRY OF ORIGIN | TYPE OF FACE PAINT | STRENGTHS  | WEAKNESSES  | TIPS  |
|--|--------|-------------------|--------------------|--|---|---|
|  cameleon<br>professional bodypaint                            | ★★★★★  | China             | Wax-based          | Good paint, all rounder  | Not very smudge resistant   | Apply thin layer to avoid smudging later  |
|  DIAMOND FX<br>FACE ART  | ★★★★★  | China             | Wax-based          | Reasonable coverage as base color<br>Blends well<br>Excellent line work<br>Inexpensive   |   |   |
|  FAB<br>Face & Body Makeup                                     | ★★★★★  | Netherlands       | Glycerin-based     | Very creamy<br>Not much activation needed<br>Hold consistency well<br>Opaque and blends well<br>Good for line work   | Needs some practice to get used to the creaminess   | Do not activate more paint than needed for the next step  |
|  GLOBAL COLOURS  | ★★★★★  | China             | Wax-based          | Just an over all good paint  |   |   |
|  GRAFTOBIAN   | ★★     | USA               | Glycerin-based     | Translucent bases with kabuki brush  | Does not apply well to skin. The un-activated paint changes consistency in pot during usage | Use it in cooler dry areas only   |
|  KRYOLAN<br>PROFESSIONAL MAKE-UP                             | ★★★★★  | Germany           | Glycerin-based     | Fast even easy controllable (translucent to opaque)base color, pleasant smell  | Not great for line work, Packaging  | Works best applied with a kabuki brush  |
|  Kryoline<br>PROFESSIONAL FACE AND BODY PAINT<br>(Creamy)    | ★★★★★  | China             | Wax-based          | Easy to work with, holds consistency well, fast coverage with sponge   |   |   |
|  Kryoline<br>PROFESSIONAL FACE AND BODY PAINT<br>(Essential) | ★★★★★  | China             | Wax-based          | Precise application with sponge possible (fast coverage, even blending and sharp edges)<br>Perfect powdery translucent finish with kabuki (if this effect is wanted) | Not opaque with kabuki brush  |   |
|  mehron<br>MAKEUP<br>(Paradise AQ)                           | ★★★★★  | USA               | Glycerin-based     | Translucent, even coverage<br>Pleasant smell<br>Blends well  | Translucency if opacity is wanted<br>Rather expensive                                       | To achieve better opacity activate a good amount of paint before applying on skin                   |
|  miken<br>Art Studio FX                                      | ★★★★★  | Germany           | Glycerin-based     | Even translucent coverage (if this effect is wanted)   | Absorbs activation water fast as a result needs to be reactivated often. Not very opaque    | Reactivate often  |
|  Party Xplosion  | ★★★★★  | China             | Wax-based          | Completely opaque, Good for line work as well as sponging and kabuki brush application   | Smears heavily  | Apply thin to avoid smudging, wait before applying next color to avoid bleeding through             |
|  Ruby Red<br>Face & Body Paint                               | ★★★★★  | USA               | Glycerin-based     | Fast even completely opaque coverage, Manufacturer claims it's the safest product on the market  | "Melts" easily  | Place cooling pad underneath paints during summer, work in shade only                               |
|  snazaroo  | ★★★★   | UK                | Glycerin-based     | Goes on soft like "butter" and covers well, Inexpensive  | Does not stay on well, Not sweat/smudge proof   | Avoid using it outdoors in hot weather if the painted design is supposed to last                    |
|  TAG<br>Body Art   | ★★★★★  | China             | Wax-based          | Just an overall good paint<br>Good opacity with sponge, kabuki brushes and line work   |   |   |
|  WOLFE<br>FACE ART & FX™                                     | ★★★★★  | China             | Wax-based          | Nicely opaque<br>Line work keeps a nice sheen once dry   |   | Build and maintain a little dip in the middle of the cake for easy control of the paint consistency |
