

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

Diamond FX/ COSMETIC REGISTRATION INFORMATION (ONLY FOR INTERNAL USE)

YOUR PRODUCT BRAND NAME: Diamond FX Eyeliner Pen / EY00, EY10, EY20, EY60, EY66, EY68.  
ARTICEL NR.: Diamond FX Eyeliner Pen Carbon  
FORMULA REFERENCE: UBM formula for EYELINER / Formula-Nr.: 060917.109-P / 060917.108-P  
060917.106-P, 060917.34-P, 060917.34-P

### SECTION 01:

BSE FREE / CMR CERTIFICATE / Free of ANIMAL TESTING

We herewith confirm that following products listed here

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

are

A. FREE OF ANY ANIMAL ORIGIN INGREDIENTS and BSE FREE B. NOT TESTED ON ANIMAL

C. DOES NOT CONTAIN ANY INGREDIENTS LISTED in the CMR category 1, 2 or 3

Article 4b of the Cosmetics Directive, prohibits the use in cosmetic products of substances CMR Category 1, 2 and 3 classified in the Annex I of the Council Directive 67/548/EEC.

### SECTION 02:

MATERIAL SPECIFICATION CERTIFICATE

We herewith confirm that following products listed here

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

are made out of following materials:

A. MATERIAL SPECIFICATION: CAPS PP

B. MATERIAL SPECIFICATION: BODY PP

C. MATERIAL SPECIFICATION: END CAPS \* PP

TOTAL WEIGHT: 6,33 gr filled pen

TOTAL WEIGHT: 5,15 gr empty pen

PP = Polypropylen / CAS - number: 9003-07-0

/ RECYCLING CODE PP RAW MATERIAL SPECIFICATION: The raw material PP is free of nitrite.

MOLECULAR FORMULA: The molecular formula (C<sub>3</sub>H<sub>6</sub>) MELTING POINT PP: 130–171 C (266–340 F)

DECLARATION OF INK VOLUME: 1,0 ml declared (minimum fill volume) / 1,2 ml real fill volume

MANUFACTURING PROCESS MANAGEMENT / METHOD of MANUFACTURING

QC SYSTEM \* PRODUCT STABILITY 12 m "BEST USE BEFORE" RECOMMENDATION

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

THE INDUSTRY TEST STANDARDS : QUALITY CONTROL & MANUFACTURING PROCESS

Good Manufacturing Practice or GMP (also referred to as 'cGMP' or 'current Good Manufacturing Practice') is a term that is recognized worldwide for the control and management of manufacturing and quality control testing of foods and pharmaceutical products.

UBM manufactures all the Liner Pen products according to the GMP norms.

Since sampling products will statistically only ensure that the samples themselves (and perhaps the areas adjacent to where the samples were taken) are suitable for use, and end-point testing relies on sampling, GMP takes the holistic approach of regulating the manufacturing and laboratory testing environment itself. An extremely important part of GMP is documentation of every aspect of the process, activities, and operations involved with drug and medical device manufacture. If the documentation showing how the product was made and tested (which enables traceability and, in the event of future problems, recall from the market) is not correct and in order, then the product does not meet the required specification and is considered contaminated (adulterated in the US). Additionally, GMP requires that all manufacturing and testing equipment has been qualified as suitable for use, and that all operational methodologies and procedures (such as manufacturing, cleaning, and analytical testing) utilized in the drug manufacturing process have been validated (according to predetermined specifications), to demonstrate that they can perform their purported function.

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

#### THE COSMETIC INDUSTRY STANDARDS:

- A. DOCUMENTATION: All manufacturing process must be documented.
- B. QUALITY CONTROL INCOMING RAW MATERIALS: All raw materials are visually controlled and UBM microbiology tested before any process and production.
- C. QUALITY CONTROL FINISHED PRODUCTS: All finished products must be microbiology tested after filling and production before shipped to clients.
- D. ANALITICAL TESTING: All purchased ingredients and colorings must be received with a Certificate of Analysis.
- E. BACK UP SAMPLES: The manufacturer of the finished product should keep from all manufactured products in each color and specification 12 BACK UP SAMPLES for the following 7 years.
- F. BATCH CODE / LOT NR.: Every single product must have a BATCH CODE on the packaging.

#### UBM MANUFACTURING PROCESS MANAGEMENT

1. All incoming ingredients have a certificate of analysis from the former suppliers.
2. All incoming ingredients are controlled by UBM QC with the backup samples we have in our lab. Any difference can be found out before the UBM manufacturing process begins.
3. The fluid ready mixed base of the ink formula is colored in the UBM factory with corresponding colorings.
4. The colorings are purchased always from the same source and with a certificate of analysis, so that we cannot have any differences in quality.
5. After filling and finishing of the pen, the UBM QC Manager takes from different cartons from all colors 12 samples which are microbiology tested in an external lab.
6. If there are no unexpected negative results, the goods can leave the factory.
7. All the products have an automatically embossed batch code on the end plugs of the liner pens.
8. The identification of a problem is guaranteed through the back up samples in our factory.
9. The products can be used without any problems within 12 months after first use PAO 12m.

#### DESINFECTION & CLEANING OF THE MANUFACTURING FACILITY

1. All rooms, warehouses and every room of the UBM factory is covered from floor to the ceiling with tiles.
2. All equipment and all surfaces of the UBM factory are stainless steel.
3. All rooms are cleaned daily with antibacterial cleaners.
4. All walls are disinfected every week from floor to ceiling.

#### DOCUMENTATION OF THE UBM PRODUCTION PROCESS

1. All steps of the UBM manufacturing process are documented for each and every order we produce.
2. All external purchased ingredients and parts are documented for each and every order we produce.
3. The documents are available for the following 7 years.

#### PRODUCT SAFETY / DANGEROUS INGREDIENTS / FLAMMABLE INGREDIENTS

1. The formula is free of alcohol or any other flammable or explosive ingredients. There are no dangerous

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

ingredients in the formula of the ink.

2. The formula is 100% water based solution.
3. The incoming ready mixed fluid base of the formula comes with a microbiology test certification.
4. All plastic parts used in this item are Polypropylen / PP and are not dangerous for human health.

**R E S U L T:** FOR ALL FINISHED LINER PENS / PAO 12 MONTHS / WAREHOUSING 36 MONTHS

1. The formula is safe and the preservative system of the base and coloured ink works according to the standards. The products can be used without any problems within 12 months after first use.
2. The liner pen is an air tight product which can be warehoused 36 months after delivery safely.
3. The microbiology test for the finished product can guarantee a clean and safe product for the consumer.

Emergency telephone number: +31-620385188

Email: Info@dfxfaceart.nl

#### 2. COMPOSITION / INFORMATION ON INGREDIENTS

Mixture of non hazardous materials according to the ingredients list

#### 3. HAZARDS IDENTIFICATION

Cosmetic product for external use, not considered as dangerous by the EEC. This product is not dangerous for the health if used in a normal condition.

#### 4. FIRST AID MEASURES

No special measures required.

This product is not dangerous for the health if used in a normal condition

Skin and Eyes: In case of irritation immediately flush eyes or skin with plenty of water for at least 15 minutes and get medical attention if irritation persists.

Ingestion: Rinse mouth with water several times and get medical attention. Inhalation: No risk known

#### 5. FIRE FIGHTING MEASURES

Extinguishing media: All standard fire fighting media.

Special fire fighting procedures: No special procedure necessary. Inflammation risk: The product itself is not flammable or burns hardly.

#### 6. ACCIDENT RELEASE MEASURES

Wipe, scrap or soak up in an inert material and put in a container for disposal. Do not pour into the public.

#### 7. STORAGE AND HANDLING

Special handling procedures: No special handling required. Product to be stored in a cool and dry place. The shelf life of this product is 3 years after the production date.

#### 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION No special measures required.

Use close gloves and an apron or other light clothing for protection.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES Appearance: liquid

Odor: odorless

Density: 1,01 +/- 0,01

Viscosity: 9 +/- 3 mps

Miscibility in water: yes pH: 10 +/- 0,40-7.00

#### 10. STABILITY AND REACTIVITY: Stable under normal conditions

11. TOXICOLOGICAL INFORMATION: No hazardous product for eye and skin based on dermatological tests

12. ECOLOGICAL INFORMATION: No risk for environment – Water endangering class: 0

13. DISPOSAL INFORMATION: Waste disposal method incinerate according local regulations

14. TRANSPORT INFORMATION: Not classified

15. REGULATORY INFORMATION: No classification and special labeling according to EU regulations

16. OTHER INFORMATION: None

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

are batch coded / cold embossed ON THE COLORED END CAPS as follows ..

A. UBM BATCH CODE system / with 4 digits / year and week

**SECTION 13:**

PRESERVATIVE CHALLENGE TEST

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

THE INDUSTRY TEST STANDARDS: PRESERVATIVE CHALLENGE TEST

The challenge test is a 28-day test used to verify the effectiveness of a preservative system in a finished cosmetic formulation. Selected formulations were inoculated with microorganisms at the onset of testing (0 hours), then sampled for one month in seven day intervals. At 21 days the formulations were re-inoculated with the same microorganisms. Pass/fail criteria were based on modified CTFA\* protocol.

Test Organisms	Inoculum Concentration (CFU/g)	
	0 hours	21 days
A. niger 16404	$2.5 \times 10^5$	$3.0 \times 10^5$
B. cepacia 25416	$5.3 \times 10^6$	$3.1 \times 10^6$
C. albicans 10231	$4.3 \times 10^6$	$1.4 \times 10^6$
E. coli 8739	$4.0 \times 10^6$	$7.5 \times 10^6$
P. aeruginosa 9027	$4.5 \times 10^6$	$5.2 \times 10^6$
Staph. aureus 6538	$8.7 \times 10^6$	$2.7 \times 10^6$

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

<b>Preservative Efficacy Test Results (CFU/g)</b>					
<b>Test Organisms</b>	<b>48 hours</b>	<b>7 days</b>	<b>14 days</b>	<b>21 days</b>	<b>28 days</b>
Aspergillus niger	<10	<10	<10	<10	<10
Burkholderia cepacia	<10	<10	<10	<10	<10
Candida albicans	<10	<10	<10	<10	<10
Escherichia coli	<10	<10	<10	<10	<10
Pseudomonas aeruginosa	<10	<10	<10	<10	<10
Staphylococcus aureus	<10	<10	<10	<10	<10

## RESULT

These results show that the preservative system of the pen destroyed all of the five pathogens tested, and they did not return during the entire 28 day testing period. The UBM formula is safe and the preservative system of the UBM base and UBM coloured ink works according to the standards.

## CONSUMER TEST FOR PERMANENT / SEMI PERMANENT

## SECTION 15:

ASSESSMENT SAFETY TEST / HRIPT (= Human Repeat Insult Patch Test)  
for SKIN ALLERGY - PERMANENT INK LINER

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS  
FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

### THE INDUSTRY TEST STANDARDS

1. The standard guidelines recognized in the industry for Repeat Insult Patch Test involves placing an occlusive patch, which is sealed on all four sides, on a one inch area of skin.
2. The clinical study should be conducted using the production 50 consenting women panellists. The patches must be left on for 24 hours.
3. The following day the panellist come back to the lab for an evaluation and another patch is placed on the same area. This process must be repeated for nine applications, after which a 10-14 day rest period is given.
4. Each panellist then comes back for a "challenge test" which is done on an adjacent unexposed area of skin. They return to the lab 24 hours later when the patch is removed and evaluated. This is again repeated.
5. The product should not produce any reaction or sensitivity during the entire trial period on any of the 50 women tested.
6. These clinical trials gives the product the highest hypoallergenic and "safe use" rating.

### UBM TEST PROCEDURE

1. In the HRIPT, a small patch of the test material (smaller than the pad of a standard plaster) is applied for 24 hours to the upper arm of each of 50 panellists.
2. The material is reapplied three times a week for three weeks at the same site on the upper arm.
3. After a two week rest period, the test material is applied again at the same site.
4. If the test material causes a contact allergy, the test site will appear red, and may be slightly swollen or itchy.

### RESULT:

There was no indication that the basic formulation or any of the coloured variations caused contact allergies or any negative side effects. This was the expected result for the finished product formulation since none of the individual ingredients have been shown to cause skin allergies at the levels used in the UBM PERMANENT INK LINER & REMOVER PEN formulas.

**SECTION 16:**

**SAFETY ASSESSMENT**

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS  
 FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

Safety Assessment / Sicherheitsbewertung nach KVO - SCCNFP 0690/03

Regarding the general toxicological profile of the ingredients, their chemical structure and the level of exposure, in accordance with the principle of good laboratory practice (GLP), the above mentioned product can be considered as safe in the intended composition as documented in the annexed formula, when applied to the human skin as intended in compliance with the instructions for use and the cautionary notices.

This assessment is supported by the following:

1. Toxicological profile of the ingredients:

Available toxico-dermatological documentation of the raw materials, and finished product tests Incl. dermatological compatibility tests and microbiological stability tests, information for poison control centers, safety data sheets, legal regulations, generally binding international assessments, recommendations of authorities and associations and marketing experience.

2. Chemical structure:

The manufactured formula based on specified raw materials, specifications of the finished goods and physic-chemical tests.

3. Level of exposure:

Depending on the conditions of use established in the instructions for use. For averting dangers, reference is to make to voluntary and statutory warnings and other information representing part of the products presentation. The composition and specification of the finished product has to be assured by suitable quality assurance measurements such as Good Manufacturing Practices (GMP).

### SECTION 17:

FILLING VOLUME / SLIM LINER PEN

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

We herewith confirm following physical research results:

WEIGHT OF INK / SLIM PENS: declared \* printed 1,0 ml (g) / in fact filled 1,2 ml (g)

- Product life by daily use twice is: 14 months

SECTION 18: for Islamic countries

\*\* PORK FREE - QUALITY CERTIFICATE \*\*

The involved products are:

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

We certify that these products are in conformity with the EU Commission Directive 76/768/EEC. They are considered safe in all normal conditions of use by consumers. They do not contain any biological bovine, ovine or caprine derived ingredients able to present a risk of B.S.E./T.S.E. contamination. None of these products contain pork, pork fat or pork derivatives.

SECTION 19: FDA / USA conformity

\*\* FDA conform \*\*

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

are manufactured according to the COSMETIC GMP EU - NORMS:

The involved products are:

PRODUCTS: SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

FORMULAS: Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

We certify that these products are in conformity with the FDA regulations and restrictions.

Diamond FX/ Pretty Face B.V. P/O 9354 1800GJ Alkmaar The Netherlands.

**FINAL SECTION 01:**

**GMP CERTIFICATE**

**PRODUCTS:** SEMI PERMANENT INK EYELINER PEN \* Diamond FX Eyeliner Pen / shades with COLORINGS

**FORMULAS:** Formula-Nr.: 060917.109-P, 060917.108-P, 060917.106-P, 060917.34-P, 060917.33-P

**GMP – ZERTIFIKAT**
