## Paraffin Based Make Up / Pearlescent Face Paint Crayon Products

### MATERIAL SAFETY DATA SHEET

Wolfe Face Art & FX, LLC products are manufactured in accordance with FDA and European Union guidelines. Wolfe products conform to the USA ASTM D 4236 and European 76/768/EEC. The components and end resulting products are just as safe to use on the face and body as any good cosmetic. The ingredients meet cosmetic guidelines for both the United States and European Community and are designed to be used on children and adults.

The data presented in this “Material Safety Data Sheet” represents the safety information on each component of our products. The components, as a final commodity, are stable, easy on the skin, and wash off with soap and water. Make-up can also be removed using petroleum jelly, baby oil or a baby wipe.

Like most make-up, dark colors on some people may leave a bit of residue on the skin for a few hours after washing. This also depends on how long the make-up remains on the skin and the type of complexion of the person. The FDA recommends that all red make-up be kept at least one half inch from eyes.

**PRODUCT INGREDIENTS**  
**Paraffin based crayon products**  
 Our products may contain some or all the following ingredients:  
**Calcium Carbonate, Paraffin, Petrolatum, Glycerin, Sodium Benzoate,**  
**and Pigments as outlined below and on the following pages**

Products may contain these ingredients						
PRODUCT NAME	FORMULA	HEALTH	FLAMMABILITY	REACTIVITY	FIRST AID MEASURES	CAS Number
Paraffin	N/A	0	1	0	C	CAS# 8002-74-2 EINECS# 232-325-6
Petrolatum	N/A	1	1	0	D	CAS# 8009-03-8 EINECS# 232-373
Glycerin	N/A	1	1	0	D	CAS# 56-81-5 EINECS# 200-289-5
Calcium Carbonate	CaCO	0	0	0	D	CAS# 471-34-1 EINECS# 207-439-9
Sodium Benzoate	C7-H5-O2-Na	2	1	0	D	CAS# 532-32-1 EINECS# 206-534-8
Perfume for body (trace) Musk RO 7562	Hydroxymethylp entylcyclohexene carboxaldehyde				B	CAS# 31906-04-4 EINECS# 250-863-4
Hazard Rating: Least    Slight    Moderate    High    Extreme 0            1            2            3            4						

Note this chart identifies hazard rating as individual ingredients full strength. Each of these ingredients represents a low percentage of the total product formula

<b>TECHNICAL INFORMATION on COLOR ADDITIVES</b>					
Our products may contain some or all the following:					
United States FDA name	European CI Number	Japanese name	Color Index name	CAS #:	General name
D & C Red No.6 & No.7	CI 15850 CI 15850:1	Red No 202	Pig Red 57	5281-04-9	Red Number 6 / 7 Lake
Ferric Ferrocyanide	CI 77510	Ferric Ferrocyanide	Pigment Blue 27	14038-43-8	Ferric Ferrocyanide
FD & C Yellow No.5	C.I. 19140	Yellow No.4	Acid Yellow 23	1934-21-0	Tartrazine
Ultramarines	CI 77007	Ultramarine	Ultramarine	57455-37-5	Ultramarine
Iron Oxides	CI 77491	Red oxide of iron	Iron oxide	1309-37-1	Red iron oxide
FD&C Blue 1	CI 42090	Blue 2	Acid Blue 74	3844-45-9	Lake Brilliant Blue
D & C Black 2	CI 77266	Carbon Black	Pigment Black 6	1333-86-4	Carbon Black
Titanium Dioxide	CI 77891	Titanium Dioxide	Pigment White 6	13463-67-7	Titanium white
Mica	CI 77019	Mica	Mica	12001-26-2	Mica
<b>See fact sheet below</b>					

**FDA COLOR ADDITIVES FACT SHEET**

U. S. Food and Drug Administration  
Center for Food Safety and Applied Nutrition  
Office of Cosmetics and Colors Fact Sheet  
July 30, 2001

Color additives have long been a part of human culture. Archaeologists date cosmetic colors as far back as 5000 B.C.

The FDA separates color additives into two categories. These are colors that the agency certifies (derived primarily from petroleum and known as coal-tar dyes) and colors that are exempt from certification (obtained largely from mineral, plant, or animal sources). Only approved substances may be used to color foods, drugs, cosmetics, and medical devices.

**COLOR ADDITIVES FACT SHEET**

Color additives are strictly regulated and, in order to protect consumers from harmful contaminants, some colors require FDA certification. These colors come from batches that are certified by FDA. Each batch is provided with its own individual certification lot number. Our color additives meet FDA color additive guidelines and the European Cosmetic Products 76/768/EEC Council Directive. FDA Fluorescent Pigments are used in some colors. Our Products will contain one or more of these ingredients.

The FDA requires domestic and foreign manufacturers of certain colors to submit samples from each batch of color produced. FDA scientists test each sample of these colors to confirm that each batch of the color is within established specifications. These certified colors are listed on labels as FD&C, D&C or external D&C. Using the uncertified versions of color additives that require certification is illegal in foods, drugs, cosmetics, and medical devices.

The color certification program is self-supporting because the law requires manufacturers to pay FDA a user fee for each pound of color the agency certifies. In Fiscal Year 2000 FDA certified more than 13 million pounds of color additives.

The following products will contain 1 or more of the above crayons

Packaged Item name: Wolfe Face Art & FX, Wolfe Novelties

Face paint Crayons

Country of Original: China & Taiwan

## FIRST AID RECOMMENDATIONS

<b>A</b>	<p>Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.</p> <p><b>FIRST AID:</b>  <b>SKIN:</b> Wash exposed area with soap and water. If irritation persists, seek medical attention.  <b>EYES:</b> Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek medical attention.  <b>INHALATION:</b> Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.  <b>INGESTION:</b> If swallowed, induce vomiting immediately after giving two glasses of water. Never give anything by mouth to an unconscious person</p>
<b>B</b>	<p>Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.</p> <p><b>FIRST AID:</b>  <b>SKIN:</b> Immediately flush skin with plenty of soap and water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention if irritation develops.  <b>EYES:</b> Wash eyes with plenty of water.  <b>INHALATION:</b> Remove to fresh air. Get medical attention for any breathing difficulty.  <b>INGESTION:</b> Not expected to require first aid measures. If large amounts were swallowed, give water to drink and get medical advice.</p>
<b>C</b>	<p>Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.</p> <p><b>FIRST AID:</b>  <b>SKIN:</b> Wash exposed area with soap and water. If irritation persists, seek medical attention.  <b>EYES:</b> Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek medical attention.  <b>INHALATION:</b> Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.  <b>INGESTION:</b> Give several glasses of milk or water. Vomiting may occur spontaneously, but it is not necessary to induce. Never give anything by mouth to an unconscious person.</p>
<b>D</b>	<p>Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.</p> <p><b>FIRST AID:</b>  <b>SKIN:</b> In case of contact, immediately wash skin with plenty of soap and water for at least 15 minutes.  <b>EYES:</b> In case of eye contact, immediately flush with plenty of water for at least 15 minutes.  <b>INHALATION:</b> If a person breathes in large amounts, move the exposed person to fresh air.  <b>INGESTION:</b> If large amounts were swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms appear.</p>

### Accidental Release Measures

**Spills:** Sweep up or absorb material, then place into a suitable clean, dry, closed container for disposal.

### Handling and Storage

Store in a cool dry area. Keep out of direct sun light and extremely warm conditions. Store in holder to maintain the quality of the crayon
